PHCC Auxiliary of NE  
c/o Sena Thoms  
8200 Skybright Rd  
Lincoln, NE 68517

**Since 1949**  
**Our mission is to work in  
partnership with the  
PHCC-State Association  
industry through cooperation,  
communication and education.**

**PLUMBING-HEATING-COOLING  
CONTRACTORS  
NATIONAL AUXILIARY  
& of NEBRASKA**

*PHC Industry  
Supporters & Friends:*

*Help us help you  
increase your Image,  
Improve PHC education,  
get higher quality  
employees, increase  
industry awareness,  
Build long lasting  
friendships all while  
having fun.*

*Is this even possible?*

*"Through the years of my auxiliary membership, I have made so many strong friendships. My family just grows bigger and bigger. How lucky am I?"*

*Conni Biggerstaff  
Past State Auxiliary President*

**Y**ou've heard it before. The comments about our industry's image, the lack of professionalism, the perception of low pay. Sadder still, these combine to create even worse news: Dwindling perspective employees, in both numbers and quality.

Though undeserved, the perception lives in the minds of prospects, customers and potential employees, costing you dearly.

What can YOU do about it?

Fortunately, the PHCC and the Auxiliary tackle these problems head on, every day.

The Auxiliary builds greater recognition of the esteemed and vital PHC profession in conjunction with the State PHCC.

That's why we're inviting you to join us. Just look at a fraction of what's included in your membership.

*" Through good times and through hardships, PHCC has been a wonderful support for us in our business and most importantly in our personal life. We have built lifelong friendships. PRICELESS!!"*

*Karla Tinius  
Past State Auxiliary President*

- **"Hire a Professional"**  
Image campaigns to generate member leads and branding.
- **Scholarships** to help attract and educate top students.  
Over \$5000.00 last year!
- **Legislative awareness** and representation-We communicate with legislative members to insure legislation getting passed is beneficial to the PHCC and members
- **PHCC logo awareness** marketing tools and materials (Coloring books, games, flyers and a LOT more!)
- **Community Volunteering opportunities**
- **Networking with industry peers, family and friends** to exchange ideas, challenges and most of all: solutions.

Plus much more...

*"The Auxiliary supports and promotes education for our members and for our future generations"*  
*Elissa Biggerstaff  
State Auxiliary Board Member*

It's easy to see how membership can be worth **thousands of dollars for each member**. Yet due to our skilled volunteers, these benefits can be yours for \$25 per year. Yes, per year.

It would *cost you much more* to have one professional ad created! It would cost you *several times* that to attend one career-boosting seminar from the top speakers and consultants.

And yet, these programs and many more are available to members of the PHCC as a result of the Auxiliary's work.

Think of it: For less than the price of a few lunches, you can lift your industry, your business and perhaps the *life* of a young man or woman considering an industry career path.

Yes, your Auxiliary membership dollars work almost as hard as you do! **But they'll do nothing if you don't join.**

So this is hardly a question of the dollar amount; it's a question of your commitment to the industry.

In truth, our strength is your strength, and we're much stronger together.
